Subject Index—Volume 36

Adrenal 63
Aesculapius, staff of 1
Aging changes 151
Air quality correlates of chronic disease mortality: Harris County, Texas 1969–1971 169

Bioassay 133
Biochemical basis of cystic fibrosis: hypothesis based upon polyelectrolytes of mucus 33
Bioelectric potentials 197

Caduceus and Staff of Aesculapius from antiquity to present 1
Causes of death 185
Chromosome banding patterns of L1210 leukemia of the mouse 143
Comparative analysis of $_{H}$CG augmentation assay for ovine and porcine follicle stimulating hormone 133
Conjecture about prevalence of essential hypertension and its high incidence in the black 25
Contraceptives, oral 69
Cystic fibrosis 33

Disease mortality, chronic 169
Drugs, addicting and non-addicting 95

Education, psychiatric 17
Effects of addicting and non-addicting drugs on HeLa cells 95
Elementary particles 39
Epidemiology of hypertension 25
Estrous cycle 63

Fertilizable life of mouse eggs stored at 1°C and 25°C 157
Fertilization, *in vitro* 157
Fractures, femoral 197
FSH
  porcine 133
  ovine 133

Globular membranes 39
Glycopeptides 151
Glycosaminoglycans 151
Gonadotrophin 63

HeLa cells 95
History of medicine 1
Hormone, follicle stimulating (FSH) 121, 133
Human transferrin C: sequence and cystine bridges of N-terminal region 47
Hypertension, essential 25

IgM fragments, human 79

Leukemia, L1210, of the mouse 143
Life tables 185

Medicine, history of 1
Membrane movement 95
Morphine tolerance 95
Mouse 157
Mucus 33

N-terminal 47

Observations of globular membranes and apparent elementary particles in rat mitochondria, *in situ* 39

"Particle-filament complex" in tumor cells of Northern Pike, *Esox lucius* L. 111
Patterns, chromosome banding 143
Pike tumor 111

Polyelectrolytes 33
Potential gains in life expectancies by partial elimination of leading causes of death in Texas 185
Primary and secondary tryptic cleavages of human IgM at high temperature 79
Proestrus levels of LH and FSH subject to adrenalectomy the same morning 63
Protein levels, B12 binding 69
Proteolysis, mechanisms of 79
Psychiatric education 17
Psychiatric research 17
Psychiatric research training 17

Research, psychiatric 17
Research training in psychiatric residency programs: a survey 47

Sequence 47
Serum vitamin B12 and B12-binding protein levels associated with oral contraceptives 69
Sodium chloride deficiency 25
Studies on ovarian and uterine weight responses to follicle stimulating hormone 121
Surface direct current bioelectric potentials in normal and injured human thigh 197

Temperature 157
Texas 169, 185
Thigh, human 197
Training, psychiatric research 17
Transferrin 47
Trypsinolysis at high temperature 79
Tumor cells 111

Urinary glycopeptides and glycosaminoglycans in children and adults as effected by age 151

Vital statistics 185
Vitamin B12 69

Weight responses, ovarian and uterine 121

SUBJECT INDEX

Acrylonitrile
follow-up data 184
investigation 58
Actin, immunofluorescence of 26
Additive and synergistic effect of carcinogens 99
Adjudicatory hearing and application of rules to individual and company 214
Administrative
agencies, Texas, and environmental decisions 212
Procedure Act (Texas) and citizen involvement in decisions 216
Procedure and Texas Register Act, for uniform agency procedure 213
Advocacy process in environmental decision-making 212
Age
-adjusted cause-specific mortality rates 67
determinant in mortality 66
Agencies in Texas 213
Air
Act, Clean. See Clean Air Act.
contaminant and air pollutant defined in Texas and Federal law 192
contaminants and construction permits (Texas) 214
Control Board, Texas. See Texas Air Control Board.
pollutant 193
pollutant, hazardous, vinyl chloride as 145
pollutants, toxic, development of regulations 197
pollution, control 191
Pollution Control and benefits/risks of new products 108. See also Texas Air Texas Air Control Board
Air (continued)
pollution control, differences between Texas and Federal 191,201
pollution, midlands of Great Britain 5
quality and visibility in N.Mex., Colo.,Ore. 109
Aksoy, Dr. 153,167,181
Alcohol
consumption histories 185
smoking and high cancer risk 6
and vinyl chloride exposure 184
Alpha-feto protein (AFP) and patients with certain cancers 54
American
Cancer Society figures 6
Medical Association and modification of Delaney Clause 101
Petroleum Institute (API)
and benzene and leukemia 171
and emergency temporary standard (ETS) on benzene 186
task force on benzene 185
Ames test
Ames, Dr. Bruce 19,22
bacteria, DNA, and ultimate carcinogen 23
description of, for mutagenicity testing 22
and ethylene chlorohydrin 146
mutagenicity of vinyl chloride and methyl chloride 148
vinyl chloride as possible mutagen 147
Anemia, pernicious and risk of stomach cancer 53
Angiosarcoma, liver 119
Animal
experiments concerning benzene 164
models 8,24

Animal (Continued)
studies 45
testing for carcinogenic effects 21
Antigens, carcinoembryonic (CEA) 53
Asbestos
in consumer products 58
lung cancer and smoking 5

Assay procedures 47
Atlantic Richfield and environmental mediation 218
Automobile accidents 122

Bacteriological systems, use in testing 19
Benefit/cost analysis 110
Benzene
American Petroleum Institute task force 185
animal experiments with 164
atmospheric concentration recommended 156
and cigarette smoke 186
and EPA synthetic organic chemicals program 147
and Exxon Corporation medical director 157
background levels 180
cancer risk and control 170
clinical cases 165
cohort in NIOSH study 180
concentrations over Amazon River Valley 162
concentrations in home, paint stripping 156
coordinated rulemaking actions by health agencies 189
criteria for recommended standard on occupational exposure to 152
cytopenia possibility 186
epidemiology 166
exposure, control of 175
exposure from catalytic reforming unit 183

Benzene (continued)
hematotoxic effect and carcinogenetic potential 162
investigation of hazards by CPSC 58
known effects 125
known exposure to, study of by Ott 181
and leukemia 165
leukemia among workers exposed to 153
leukemia link 171
leukemogenic properties at 10 parts per million 181
occupational carcinogenesis 176
oil company briefs on temporary standard 174
OSHA's Emergency Temporary Standard 170
pharmacokinetics of 186
protection from adverse effects 162
regulatory action 176
research and regulation 152
safe level 180
standard, legal action to stay 185
suspected as cancer agent 94
use of Emergency Temporary Standard, industry view 209
vegetation as natural source 162
and vinyl chloride — similar problems 184
world's literature 152
Benzidine 94
Benzol. See benzene.
Benzopyrene 23
Bile acid and hepatocytes 148
Bile acids and cancer 8
Bioassays, cell culture 26
Bladder cancer 75,76,77,94
Bladder cancer mortality 68

Blood abnormalities 181
Blot,Dr.,analysis of petroleum counties 82,152

Brain neuroblastoma 126
Breast cancer. See Cancer, breast.
Bronchial scopes and detection of lung cancer 123

Cancer
animal testing 97
in animals exposed to vinyl chloride 126
bile acids and carcinogenicity 8
bladder 75,76,77,94
mortality 68
bowel, large 11
breast 2,11.51
and dietary fat 9
and menarche 51
and menopause 51
causes 3,21
cervix 123
chemical compounds and 96
cholesterol 8
colon 2,7,52
and daily fat intake 7
deaths 74
increase in 65
detection of 127-130
50
and diet 6,11,12
due to life styles 4
education in signs of 50
environmental 1,45,95
environmental factors 96
epidemiological considerations 64
etiology, environmental exposures in 67
figures for 1977 6
latency period 96
leukemia 3,180-184
acute 94
and benzene 153,165,171
chronic 94
and cigarette smokers 186
and NIOSH study 58
no excesses in chemical industry counties in National Cancer Institute study 182
Cancer (continued)
leukemia (continued)
in petroleum counties 152
liver 68,75,76,77,118-122
histology and indocyanine dye clearance abnormalities in vinyl chloride workers 143
primary 68
lung 2,53,75,76,123,124,126
geographic distribution 68
in petroleum counties 152
among petroleum refinery workers 183
and vinyl chloride 130
lymphoma 3
main human, and cooking and foods 12
mesothelioma, in asbestos workers 5
mortality 66,152
nasal cavity, in petroleum counties 152
nasal sinuses, excess incidence 183
occupational 3
Occupational, Committee on Public Information on 178
pancreas 2
prevention and control 94ff.
principles employed in determining risk 96
prostate 2,9,10,11
rectal-colon 123
rectum 52
Research, International Agency for 152
risk for 50,105
screening 26
scrotum and chimney sweeps 3
sinuses, in petroleum counties 152
skin 56
and smoking 4
statistical and epidemiological considerations 64
stomach 53
and stress 101
terminology 45

Cancer (continued)
tumor types 128
types of 2
uterine cervix 52
vagina 2
Carbon-compound regulations, TACB 201
Carcinoembryonic antigens (CEA) 53
Carcinogen(s) 4-12
additive or synergestic effect 99
chemical, as genotoxic 19
chromium 104
copper 104
environmental, assessing risk 118
environmental, protection of public 188
female sex hormones 104
how to regulate 145
iron 104
metabolism of 21
no-effect level 98,104
radiation 102
regulation of 56
selenium 104
testing 21
threshold level 98
"ultimate" 149
ultimate and active state of compound 23
Carcinogenesis
chemical 46
dose and concentration dependent 9
ionizing radiation 108
mechanisms of 23
occupational, with respect to benzene 176
process of 102
Carcinogenetic potential and hematotoxic effect of benzene 162
Carcinogenic
chemicals, screening 26
chemicals, workmen and plant design 3
effects and review of permit applications 196
Carcinogenic (continued)
food additive 104
information concerning hazards in the work place 177
informing workers of hazards 178
potential in industrial environments, type A,B, and C 133
Carcinogenicity
evaluating evidence of 61
vinyl chloride 126
Case-control or retrospective study 70,93
Carter, President 99
Cell transformation in vitro,26
Cell culture bioassays 26
Cervix, cancer of 52,123
Chamber of Commerce opposition to consumer advocates 225
Chemical(s)
and cancer 96
carcinogenesis 46
engineers, training of 3
evaluating in the environment 108
flame-retardant 57
inadequate investigation of hazards 223
industrial 96
industrial complex and leukemogenic properties of benzene 157
industry counties 69,76,77
industry counties, analysis of 182,184
Industry Institute of Toxicology 204
and testing 209,210
low-level exposure 109
regulating in environment 107
regulatory decisions 110
substances, manufacture, distribution and uses 63
toxicity of vinyl chloride 126

Chemists, Manufacturing, Association 205
Chimney sweeps and cancer of scrotum 3
Chloracetaldehyde 147
Cholesterol
bile acids and cancer 7
and carcinomas of liver 146
concentration in Western diet 11
and dehydrogenase feedback control 148
Cigarette smoke, significant amount of benzene 186
Citizen-kings 100
Clean Air Act
Federal 101,191
and plant excursions 147
and promulgation of emission standard for vinyl chloride 145
Texas and Federal 191,195
Cohort or prospective study 70,94
Cohort, with 100% follow-up 182
Colon cancer 2,52
Committee on Public Information on Occupational Cancer 178
Conservation Foundation and testing 209
Construction permits (Texas) and air contaminants 214
Consumer advocate for state and federal agencies 225
Consumer Product Safety Commission (CPSC) 56,63,187
court ruling on benzene standard 176
Consumer products and Delaney Clause 101
Contaminant, air 193
Contested cases under Administrative Procedure Act (Texas) 213
Correlation between carcinogenicity and mutagenicity 21
Cost benefit/risk assessment 107,114,116,117,125
Costs, benefits and risks evaluation by public 218
Council on Environmental Quality and interagency program on toxic substances 100
Courts of Appeal and benzene standards 176
Cytopenia and benzene concentration 186

DDT 109
Death rates 72,73
selected cancer sites 81,82
in Texas in 1972 66
Death, ten leading causes in U.S. 65
Decision analysis in regulatory decisions 110
Decision-making process
balancing need vs. risk 60
improving 217,219
public and the beaurocratic system 219
Dehydrogenase feedback control and cholesterol 146
Delaney Clause
and consumer products 101
prohibition addition carcinogens to food supply 99
unacceptable consequences of 108
Democracy, as chosen form of government 95
Department of Labor hearings on benzene 154
Detection of cancer 127-130
early 50
Detection, radioisotopic, of anatomical lesions 129
Dibromochloropropane
agricultural chemical, and sterility 4
emergency temporary standard 185
Diet and cancer 6
Dietary fat and cancer 7,9
Dietary fiber and colon cancer 8
Discharges, relief-valve 147
DNA 19,20,102
damage 185

DNA (continued)
repair 23,103
Dose concentration, vinyl chloride 119
Dose-response 20
and long-term exposure 196
relationship for carcinogens 98
relationships 102
thresholds 102
Druckrey 120
du Pont

  interagency coordination 187
  necessary industry participation 206
  need to involve industry and public 205
  petitioning for, Texas 213

Regulation(s) (continued)
public hearings prior to adoption by TACB 202
of suspected carcinogens 56
of toxic substances, hearings on, in Texas 202
Regulatory
action, benzene 176
agencies, health, Federal Government 187
agencies, public distrust of state and local 218
agencies, rebuilding public confidence 218
decisions 110
hearings and consumer advocate idea 225
process
correcting imbalances in representation 222
industrial views and concerns 204
public concern with and distrust 217
Respirators 180,181,185
Retrospective or case-control study 70,93
Risk(s)
acceptable, public understanding of 221
assessment 60,125
assessment, community 118
assessment, consistent 188
benefit analysis as means to organize information 222
bias of true 182
cancer 50,105
chemical, control of 111
comparative 123
concept of, with benzene 176
cost benefit/risk assessment 107
extrapolation to humans 120
information to workers essential to understanding 177
levels of
government 177
management 177
worker 177
Risk(s) (continued)
probability 120
rate of, statement 74
and social conscience: geographic areas, occupations, economic class and generation 222
statements of 66
variations in 5
workers, HEW as decision source 178
rubber workers 154

Saccharine 20,97,103
Safe level, benzene 180
Safety,
definition 107
and money 224
and risk 221
Scientific community and decision-making 220
Screening, carcinogenic chemicals 26
Shell Oil Company
brief on benzene standard 174
and regulatory process 204
Sierra Club and Office Toxic Substances meeting 205
Sinusoidal cell change, malignant transformation 142
Sinusoidal dilation 141
Skin cancer 56
Smoking
and cancer 4
high intensity air pollutant 5
Soap and Detergent Association and Office Toxic Substances meeting 205
Spleen disorders associated with vinyl chloride 129
Spleen enlargement 149
Standard(s)
actions, benzene 176
concentration 151
Emergency Temporary on benzene 170

Standard(s) (continued)
emission, vinyl chloride 145
Mortality Ratio (SMR) 182, 183
Oil of Ohio brief on benzene standard 174
recommended, for exposure to benzene 152
and Regulations Program (1976) of Texas Air Control Board 196
Statistics in epidemiology 125
Statistical considerations in cancer 64
Statistical method for assessing risk 118
Stockholder, role of 224
Stockholders' liability for pollution 224
Stomach cancer 53
Stress and cancer 101
anecdotal evidence 101
retrospective inquiries 101
Study, studies
cohort or prospective 70,94
ecological 69
longitudinal 94
morbidity 94
mortality 94
retrospective or case-control 70,93
Substitutes for hazardous chemicals 60
Synergistic effect of carcinogens 99
Synergistic effects, combined chemicals 122,123
System, immune 54,101

T-cell system 54
Tabershaw-Cooper Associates morbidity study for API 172
Tenneco, public hearing on plant construction 224
Teratogenic effects and permit applications 196
Terminology, cancer 45
Test, Ames. See Ames test.
Testing
animal, in cancer 97
carcinogens 21
chemical substances 59,60
industry view 204
mutagenicity 22
need of laboratories and toxicologists 210
Texas Air Control Board (TACB) 125,192,195
disregard of recommendations 225
need for consumer advocate 225
petitioning for a regulation 213
and review of local conditions 202
Texas Clean Air Act. See Clean Air Act, Federal and Texas.
Texas Radiation Control Agency 108
Texas Register and notice to public of agency hearings 214
Texas Water Quality Board. See Water Quality Board.
Thames, cleaning up of 224
Threshold
dose level 120
dose-response 102
level for carcinogens 98
level of effects for vinyl chloride 145
Thymic influenced lymphocyte (T-lymphocyte) 54
T-lymphocyte screening test 55
Town-hall-meeting hearings 214
Toxic
air contaminants, priority list, TACB 197
air pollutants and contaminants in Texas, control of, 198-199
substances 60
in air, potential for health risks 191

Toxic (continued)
Substances Control Act (TSCA) 22,57,60,63,104
legislation and regulations 204
regulation of exposure to harmful environments 4
Substances, Office of (OTS) in EPA 205
testing 209
Substances Strategy Committee 100
Toxicologists, shortage of 209
Toxicology, Chemical Industry Institute of 204
Toxicology testing, consistent methods 188
Tubulin/immunofluorescence of 26
Tumor, non-vascular lesions 128
Tumor types 128
Tyranny and government 95

Union Oil Company brief on benzene standard 174
Uterine cervix cancer 52

Vigliani 153
Vinyl chloride
and Ames test 147
associated injury in animals 126
cancers by site 137
carcinogenicity 126
chemical toxicity 126
comparison with methyl chloride on Ames test 148
contact with and risk 123
emissions regulation, EPA and industry 206
emission standards 145
and Environmental Protection Agency 145
health effects 126
hepatic lesions related to exposure 127
inhalation, dose concentration 119
known effects 125
metabolism of 146
metabolic/pathogenesis update 130
monomers, synthesis processes 151
mutagenicity 146
pathogenesis via human case studies 132
risk assessment 118-122
threshold level 145
worker and alcohol 184
workers, liver histology 143
workers, spleen size and wedged hepatic vein pressure 144

Water Quality Board, manipulation of recommendations 225
Worker(s)
economic protection if removed for medical reasons 175
education for cancer risk 105-106
exposed to benzene, leukemia among 153
and information regarding hazards in the workplace 177
medical surveillance program 149
at risk, HEW as decision source 178

X-rays 123
